SIEMENS

Data sheet

6GK7243-1BX30-0XE0

product type designation

CP 1243-1

Communications processor CP 1243-1 for connection of SIMATIC S7-1200 as additional Ethernet interface and for Connection to control centers via telecontrol protocols (DNP3, IEC 60870, TeleControl Basic), security (Firewall, VPN).

transfer rate		
transfer rate		
at the 1st interface	10 100 Mbit/s	
interfaces		
number of interfaces / according to Industrial Ethernet	1	
number of electrical connections		
 at the 1st interface / according to Industrial Ethernet 	1	
for power supply	0	
type of electrical connection		
 at the 1st interface / according to Industrial Ethernet 	RJ45 port	
supply voltage, current consumption, power loss		
type of voltage / of the supply voltage	DC	
supply voltage / 1 / from backplane bus	5 V	
consumed current		
• from backplane bus / at DC / at 5 V / typical	0.25 A	
power loss [W]	1.25 W	
ambient conditions		
ambient temperature		
 for vertical installation / during operation 	-20 +60 °C	
 for horizontally arranged busbars / during operation 	-20 +70 °C	
during storage	-40 +70 °C	
during transport	-40 +70 °C	
relative humidity		
at 25 °C / without condensation / during operation / maximum	95 %	
protection class IP	IP20	
design, dimensions and weights		
module format	Compact module S7-1200 single width	
width	30 mm	
height	110 mm	
depth	75 mm	
net weight	0.122 kg	
fastening method		
 35 mm top hat DIN rail mounting 	Yes	
wall mounting	Yes	
product features, product functions, product components / general		
number of units		
• per CPU / maximum	3	
performance data / open communication		

number of possible connections / for open communication	
by means of T blocks / maximum	like CPU
performance data / S7 communication	
number of possible connections / for S7 communication	
• maximum	like CPU
performance data / IT functions	
number of possible connections	
as email client / maximum	1
performance data / telecontrol	
suitability for use	Ma
• node station	No Yea
• substation	Yes
TIM control center	No
control center connection	For use with TeleControl Server Basic, WinCC and PCS7
 by means of a permanent connection 	supported
• note	Connection to SCADA system via Telecontrol Server Basic and Standard Telecontrol protocols
protocol / is supported	relecontrol protocols
protocol / is supported	Voc
• DNP3	Yes
• IEC 60870-5	Yes
product function / data buffering if connection is aborted	Yes; 64,000 events
number of data points per station / maximum	500
number of stations / for direct communication / with Telecontrol Server Basic	
• in send direction / maximum	3
in receive direction / maximum	15
performance data / teleservice	
diagnostics function / online diagnostics with SIMATIC STEP 7	Yes
product function	
 program download with SIMATIC STEP 7 	Yes
remote firmware update	Yes
product functions / management, configuration, engineering	
configuration software	
• required	STEP 7 Basic/Professional
product functions / diagnostics	
	Vos
product function / web-based diagnostics	Yes
product function / web-based diagnostics product functions / security	165
product functions / security	stateful inspection IPsec, SINEMA RC
product functions / security firewall version product function / with VPN connection	stateful inspection IPsec, SINEMA RC
product functions / security firewall version product function / with VPN connection type of encryption algorithms / with VPN connection	stateful inspection IPsec, SINEMA RC AES-256, AES-192, AES-128, 3DES-168
firewall version product functions / security firewall version product function / with VPN connection type of encryption algorithms / with VPN connection type of authentication procedure / with VPN connection	stateful inspection IPsec, SINEMA RC AES-256, AES-192, AES-128, 3DES-168 Preshared key (PSK), X.509v3 certificates
firewall version product functions / security firewall version product function / with VPN connection type of encryption algorithms / with VPN connection type of authentication procedure / with VPN connection type of hashing algorithms / with VPN connection	stateful inspection IPsec, SINEMA RC AES-256, AES-192, AES-128, 3DES-168 Preshared key (PSK), X.509v3 certificates MD5, SHA-1, SHA-2
firewall version product functions / security firewall version product function / with VPN connection type of encryption algorithms / with VPN connection type of authentication procedure / with VPN connection type of hashing algorithms / with VPN connection number of possible connections / with VPN connection	stateful inspection IPsec, SINEMA RC AES-256, AES-192, AES-128, 3DES-168 Preshared key (PSK), X.509v3 certificates
firewall version product function / with VPN connection type of encryption algorithms / with VPN connection type of authentication procedure / with VPN connection type of hashing algorithms / with VPN connection number of possible connections / with VPN connection product function	stateful inspection IPsec, SINEMA RC AES-256, AES-192, AES-128, 3DES-168 Preshared key (PSK), X.509v3 certificates MD5, SHA-1, SHA-2 8
firewall version product function / with VPN connection type of encryption algorithms / with VPN connection type of authentication procedure / with VPN connection type of hashing algorithms / with VPN connection number of possible connections / with VPN connection product function password protection for Web applications	stateful inspection IPsec, SINEMA RC AES-256, AES-192, AES-128, 3DES-168 Preshared key (PSK), X.509v3 certificates MD5, SHA-1, SHA-2 8
firewall version product functions / security firewall version product function / with VPN connection type of encryption algorithms / with VPN connection type of authentication procedure / with VPN connection type of hashing algorithms / with VPN connection number of possible connections / with VPN connection product function • password protection for Web applications • password protection for teleservice access	stateful inspection IPsec, SINEMA RC AES-256, AES-192, AES-128, 3DES-168 Preshared key (PSK), X.509v3 certificates MD5, SHA-1, SHA-2 8 No
firewall version product functions / security firewall version product function / with VPN connection type of encryption algorithms / with VPN connection type of authentication procedure / with VPN connection type of hashing algorithms / with VPN connection number of possible connections / with VPN connection product function • password protection for Web applications • password protection for teleservice access • encrypted data transmission	stateful inspection IPsec, SINEMA RC AES-256, AES-192, AES-128, 3DES-168 Preshared key (PSK), X.509v3 certificates MD5, SHA-1, SHA-2 8 No No No
firewall version product functions / security firewall version product function / with VPN connection type of encryption algorithms / with VPN connection type of authentication procedure / with VPN connection type of hashing algorithms / with VPN connection number of possible connections / with VPN connection product function • password protection for Web applications • password protection for teleservice access • encrypted data transmission • ACL - IP-based	stateful inspection IPsec, SINEMA RC AES-256, AES-192, AES-128, 3DES-168 Preshared key (PSK), X.509v3 certificates MD5, SHA-1, SHA-2 8 No No No Yes No
firewall version product functions / security firewall version product function / with VPN connection type of encryption algorithms / with VPN connection type of authentication procedure / with VPN connection type of hashing algorithms / with VPN connection number of possible connections / with VPN connection product function • password protection for Web applications • password protection for teleservice access • encrypted data transmission • ACL - IP-based • ACL - IP-based for PLC/routing	stateful inspection IPsec, SINEMA RC AES-256, AES-192, AES-128, 3DES-168 Preshared key (PSK), X.509v3 certificates MD5, SHA-1, SHA-2 8 No No No Yes No
firewall version product functions / security firewall version product function / with VPN connection type of encryption algorithms / with VPN connection type of authentication procedure / with VPN connection type of hashing algorithms / with VPN connection number of possible connections / with VPN connection product function • password protection for Web applications • password protection for teleservice access • encrypted data transmission • ACL - IP-based • ACL - IP-based for PLC/routing • switch-off of non-required services	stateful inspection IPsec, SINEMA RC AES-256, AES-192, AES-128, 3DES-168 Preshared key (PSK), X.509v3 certificates MD5, SHA-1, SHA-2 8 No No No Yes No No
firewall version product functions / security firewall version product function / with VPN connection type of encryption algorithms / with VPN connection type of authentication procedure / with VPN connection type of hashing algorithms / with VPN connection number of possible connections / with VPN connection product function • password protection for Web applications • password protection for teleservice access • encrypted data transmission • ACL - IP-based • ACL - IP-based for PLC/routing • switch-off of non-required services • blocking of communication via physical ports	stateful inspection IPsec, SINEMA RC AES-256, AES-192, AES-128, 3DES-168 Preshared key (PSK), X.509v3 certificates MD5, SHA-1, SHA-2 8 No No No Yes No No No
firewall version product functions / security firewall version product function / with VPN connection type of encryption algorithms / with VPN connection type of authentication procedure / with VPN connection type of hashing algorithms / with VPN connection number of possible connections / with VPN connection product function • password protection for Web applications • password protection for teleservice access • encrypted data transmission • ACL - IP-based • ACL - IP-based for PLC/routing • switch-off of non-required services	stateful inspection IPsec, SINEMA RC AES-256, AES-192, AES-128, 3DES-168 Preshared key (PSK), X.509v3 certificates MD5, SHA-1, SHA-2 8 No No No Yes No No
firewall version product functions / security firewall version product function / with VPN connection type of encryption algorithms / with VPN connection type of authentication procedure / with VPN connection type of hashing algorithms / with VPN connection number of possible connections / with VPN connection product function • password protection for Web applications • password protection for teleservice access • encrypted data transmission • ACL - IP-based • ACL - IP-based for PLC/routing • switch-off of non-required services • blocking of communication via physical ports	stateful inspection IPsec, SINEMA RC AES-256, AES-192, AES-128, 3DES-168 Preshared key (PSK), X.509v3 certificates MD5, SHA-1, SHA-2 8 No No No Yes No No No
firewall version product functions / with VPN connection type of encryption algorithms / with VPN connection type of authentication procedure / with VPN connection type of hashing algorithms / with VPN connection type of hashing algorithms / with VPN connection number of possible connections / with VPN connection product function • password protection for Web applications • password protection for teleservice access • encrypted data transmission • ACL - IP-based • ACL - IP-based for PLC/routing • switch-off of non-required services • blocking of communication via physical ports • log file for unauthorized access	stateful inspection IPsec, SINEMA RC AES-256, AES-192, AES-128, 3DES-168 Preshared key (PSK), X.509v3 certificates MD5, SHA-1, SHA-2 8 No No No Yes No No No
firewall version product function / with VPN connection type of encryption algorithms / with VPN connection type of authentication procedure / with VPN connection type of hashing algorithms / with VPN connection type of hashing algorithms / with VPN connection number of possible connections / with VPN connection product function • password protection for Web applications • password protection for teleservice access • encrypted data transmission • ACL - IP-based • ACL - IP-based for PLC/routing • switch-off of non-required services • blocking of communication via physical ports • log file for unauthorized access product functions / time	stateful inspection IPsec, SINEMA RC AES-256, AES-192, AES-128, 3DES-168 Preshared key (PSK), X.509v3 certificates MD5, SHA-1, SHA-2 8 No No No Yes No No No
firewall version product function / with VPN connection type of encryption algorithms / with VPN connection type of authentication procedure / with VPN connection type of hashing algorithms / with VPN connection type of hashing algorithms / with VPN connection number of possible connections / with VPN connection product function • password protection for Web applications • password protection for teleservice access • encrypted data transmission • ACL - IP-based • ACL - IP-based for PLC/routing • switch-off of non-required services • blocking of communication via physical ports • log file for unauthorized access product functions / time protocol / is supported	stateful inspection IPsec, SINEMA RC AES-256, AES-192, AES-128, 3DES-168 Preshared key (PSK), X.509v3 certificates MD5, SHA-1, SHA-2 8 No No No Yes No No No Yes No No No
firewall version product function / with VPN connection type of encryption algorithms / with VPN connection type of authentication procedure / with VPN connection type of hashing algorithms / with VPN connection number of possible connections / with VPN connection product function • password protection for Web applications • password protection for teleservice access • encrypted data transmission • ACL - IP-based • ACL - IP-based for PLC/routing • switch-off of non-required services • blocking of communication via physical ports • log file for unauthorized access product functions / time protocol / is supported • NTP	stateful inspection IPsec, SINEMA RC AES-256, AES-192, AES-128, 3DES-168 Preshared key (PSK), X.509v3 certificates MD5, SHA-1, SHA-2 8 No No No Yes No No No Yes No No Yes
firewall version product function / with VPN connection type of encryption algorithms / with VPN connection type of authentication procedure / with VPN connection type of hashing algorithms / with VPN connection type of hashing algorithms / with VPN connection number of possible connections / with VPN connection product function • password protection for Web applications • password protection for teleservice access • encrypted data transmission • ACL - IP-based • ACL - IP-based for PLC/routing • switch-off of non-required services • blocking of communication via physical ports • log file for unauthorized access product functions / time protocol / is supported • NTP • NTP (secure)	stateful inspection IPsec, SINEMA RC AES-256, AES-192, AES-128, 3DES-168 Preshared key (PSK), X.509v3 certificates MD5, SHA-1, SHA-2 8 No No No Yes No No No Yes No No Yes
firewall version product function / with VPN connection type of encryption algorithms / with VPN connection type of authentication procedure / with VPN connection type of hashing algorithms / with VPN connection type of hashing algorithms / with VPN connection number of possible connections / with VPN connection product function • password protection for Web applications • password protection for teleservice access • encrypted data transmission • ACL - IP-based • ACL - IP-based for PLC/routing • switch-off of non-required services • blocking of communication via physical ports • log file for unauthorized access product functions / time protocol / is supported • NTP • NTP (secure) time synchronization • from NTP-server	stateful inspection IPsec, SINEMA RC AES-256, AES-192, AES-128, 3DES-168 Preshared key (PSK), X.509v3 certificates MD5, SHA-1, SHA-2 8 No No No Yes No No Yes No No Yes No No Yes
firewall version product function / with VPN connection type of encryption algorithms / with VPN connection type of authentication procedure / with VPN connection type of hashing algorithms / with VPN connection type of hashing algorithms / with VPN connection number of possible connections / with VPN connection product function • password protection for Web applications • password protection for teleservice access • encrypted data transmission • ACL - IP-based • ACL - IP-based for PLC/routing • switch-off of non-required services • blocking of communication via physical ports • log file for unauthorized access product functions / time protocol / is supported • NTP • NTP (secure) time synchronization • from NTP-server • from control center	stateful inspection IPsec, SINEMA RC AES-256, AES-192, AES-128, 3DES-168 Preshared key (PSK), X.509v3 certificates MD5, SHA-1, SHA-2 8 No No No Yes No No Yes No No Yes Yes Yes
firewall version product function / with VPN connection type of encryption algorithms / with VPN connection type of authentication procedure / with VPN connection type of hashing algorithms / with VPN connection type of hashing algorithms / with VPN connection number of possible connections / with VPN connection product function • password protection for Web applications • password protection for teleservice access • encrypted data transmission • ACL - IP-based • ACL - IP-based for PLC/routing • switch-off of non-required services • blocking of communication via physical ports • log file for unauthorized access product functions / time protocol / is supported • NTP • NTP (secure) time synchronization • from NTP-server	stateful inspection IPsec, SINEMA RC AES-256, AES-192, AES-128, 3DES-168 Preshared key (PSK), X.509v3 certificates MD5, SHA-1, SHA-2 8 No No No Yes No No Yes No No Yes Yes Yes

security information		
security information	Siemens provides products and solutions with industrial security functions that support the secure operation of plants, solutions, machines, equipment and/or networks. They are important components in a holistic industrial security concept. With this in mind, Siemens' products and solutions undergo continuous development. Siemens recommends strongly that you regularly check for product updates. For the secure operation of Siemens products and solutions, it is necessary to take suitable preventive action(e.g. cell protection concept) and integrate each component into a holistic, state-of-the-art industrial security concept. Third-party products that may be in use should also be considered. For more information about industrial security, visit http://www.siemens.com/industrialsecurity. To stay informed about product updates as they occur, sign up for a product-specific newsletter. For more information, visit http://support.automation.siemens.com. (V3.4)
